Hi Dan -

Can you forward the letter to me?

Thanks,

Jason Musante
Federal On-Scene Coordinator
U.S. EPA Region IX - Los Angeles

Grant – the text of the letter looks fine to me. If you wish, you can revise it to say that air monitoring at the site by US EPA began the week of 10/17, with very conservative trigger levels, to ensure that the surrounding community is protected. We have installed 4 perimeter air monitors (two in front and two in back) on the facility and one air monitor on a resident's property that is directly adjacent to the facility.

Active community engagement is ongoing, with door to door communication and fact sheets being distributed to the residents.

Best, Dan M

Subject: Draft Reponse to Roybal Allard

Hi All:

I have attached a draft reply to Rep. Roybal Allard concerning the cleanup of the Fruitland Magnesium Fire site in Maywood.

I wanted to send this past each of you for any input on the text, since it describes your respective programs, just to make certain that we all agree that the letter accurately describes the cleanup process.

If you could please take a look at the text and give any feedback by Monday COB, that would be tremendously helpful. I'm checking separately with AQMD concerning their information.

Thanks very much for any time that you have for the review.

Please let me know if any questions come up.

Best,

Grant
